UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the October/November 2007 question paper

0610 BIOLOGY

0610/05

Paper 5 (Practical Test), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2007 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2		Mark Scheme		Syllabus	Paper	
		IGCSE – October/November 200	7	0610	05	
(a) (i) (ii)	border and columns and rows with ruled lines; columns/rows, with headings;					
	time	for pH 8 ; able units (in heading or in each box) ;			[3]	
(b) (i)	L S P	axes correctly orientated; labels on axes + units for time; even scale (should include 0); plot 5 points correctly; ruled line point to point of the plotted 5 poi	ints (not p	oH 4 and 8) ;	[5]	
(ii)	mos	t active/optimum/works best , at pH 7 ;	(A) neutr (A) within	ral n 6.5 – 8 as a range		
	less	less active/slower , at , acid/low , pH ; less active/slower , at , alkaline/high , pH ; denatured enzyme ; (A) use of figures to m (A) description			e <i>point</i> s [3 max]	
(iii)	own results plotted; look at their results table ~ to within half a square [N.B. tube A (+C) is pH8, tube B (+D) is pH4] [1]					
(iv)	2	different enzyme/enzyme has different opt different <u>concentration</u> of enzyme; different <u>volume</u> of enzyme;	timum pH	;		
	4 5	carried out at <u>different</u> temperature; different, shaking/stirring;	(R) tem	perature has an effe	ect	
		different, type of film/amount of protein or different sized pieces of film;	n film ;		[2 max]	
(c) 1 2 3	sam	e volume of enzyme; e concentration of enzyme; e volume of substrate;				
4 5	sam repe	e concentration of substrate; eats;				
6 7 8	ref. t	y out , for stated range of/at (at least 3) diff to maintaining pH/carry out at optimum pH same , shaking/stirring/agitation , of tube ;		ted , temperatures ;	[4 max]	
					[Total: 20]	

1

[Total: 20]

		Cotton of Attonory Total Cotton	3010				
(a)	(i)	<pre>drawing ~ clear outline ; includes petiole ;</pre>					
		network of/branching/lateral, veins; (R) petiole/leaf stalk; (R)) mid vein) parallel/veinlets) 'stalk' alone				
		lamina/leaf blade;		[5 max]			
	(ii)	expect comparative statement unless it is clear that one surface <u>only</u> has the feature					
		<pre>(upper surface) veins less prominent; more shiny; darker colour; smoother/waxy; fewer/no, stomata;</pre>		[2 max]			
(b)	(i)	total (+ correct units);		[1]			
	(ii)	number of whole squares;					
		attempt to include the part squares;		[2 max]			
(c)	(i)	bubbles on lower surface \underline{and} , none/few , on upper (A)	r surface ;) <u>more</u> bubbles on lower	surface [1]			
	(ii)	air/gas, (trapped) in, leaf/intercellular spaces;					
		air expands; air escapes through stomata (on lower surface);					
		more stomata on lower surface;		[2 max]			
(d)	(i)	epidermal cell; guard cell;		[2]			
	(ii)	(at least 2) guard cells only circled;		[1]			
(e)	1 2 3	suitable use of microscope; preparation of epidermis on slide; detail; e.g. cover with water & coverslip/use of stail) <i>nail varnish peel</i> ning				
	4 5 6	count the number of stomata in , field of view/given determine the area viewed in which stomata were calculate the area of leaf/ref. to calculation in (b);		[4 may]			
	7	multiply up for the whole leaf;		[4 max]
